## VICE-CHANCELLOR

Greetings from the Vice-chancellor, Delhi Teachers University! It is a matter of great honor and pleasure that destiny has given me an opportunity to lead Delhi Teachers University. As the founding Vice Chancellor, I am honored to be working towards the establishment of Delhi Teachers University as one of the leading institutions of teacher education in India and around the world. If education is the foundation of a prosperous country, teachers are the architects and builders of that foundation. Teaching is a profession that supersedes all others, for each and every person has encountered a teacher who has had an impact on their life. It is only when we cherish and celebrate the human that is at the source of good teaching, will we be able to achieve our lofty goals of quality education for all children. Furthermore, while for every profession we have institutes of global eminence there isn't a single institute of merit when it comes to teacher training. Thousands of young people are trained to become teachers each year and yet we cannot name a single university or college in India that has a reputation for being world-class. After intense research and hard work, I am thrilled to announce that our university is all set to welcome new students this year and nurture them into passionate educators. Delhi Teachers University is envisioned to evolve as a global center for excellence in teacher education at both pre-service and in-service stages across the school levels, and in the areas of education studies, leadership and policy. It will work towards bridging the gap between research, policy, and practice in teacher education while constantly engaging with the dynamic concepts and realities of quality in education in the Indian context. The key focus of our University is to select and nurture individuals who are deeply passionate about teaching. This will help bring in transformative education, empower and uplift the youth, and promote a just, peace-filled, and humane society. The graduates of Delhi Teachers University will be committed to solving society's greatest challenges through education. Their commitment to co-equity, dignity, and compassion will be evident in their actions which will serve as role models to their pupils. It is my privilege and pleasure to welcome the students, staff, and all others who visit this portal. The DTU website endeavors to provide a comprehensive profile of the university from the time of its inception to the present and will keep you updated and connected with us. We look forward to welcoming you to be part of our vibrant learning community.

**Prof. Dhananjay Joshi**

# 1. About the University

Delhi Teachers University has been established through the Delhi Teachers University Act, 2022 (Delhi Act 02 of 2022), on 26 January 2022. The University is dedicated to evolve efficiently in both Pre-service and In-service stages across the school levels in areas of Educational studies, Leadership and Policy. It is incorporated as a Teaching University for focuses on promoting professional preparation of Pre-service and In-service Teachers, Research in education and Extension activities in the field of school education.

The University shall be engaged in teaching and research in emerging areas of Teacher Education with focus on promoting multidisciplinary teaching and research to achieve Excellence in Teacher Education, School Education, and connected fields. It will work towards bridging the gap between Practice, Research and Policy in teacher preparation while constantly engaging with the dynamic concept and realities of quality in education across India. The University will consider its mission to address the issues of quality and equity in Teacher Education and prepare professional teachers and educators that are motivated, sensitive, knowledgeable and skilled.

## 2. Vision and Mission of the University

The University is envisioned to evolve as a center for excellence in teacher education at both pre-service and in-service stages across the school levels, and in the areas of education studies, leadership and policy. It will work towards bridging the gap between practice, research and policy in teacher education while constantly engaging with the dynamic concepts and realities of quality in education in the city of Delhi.

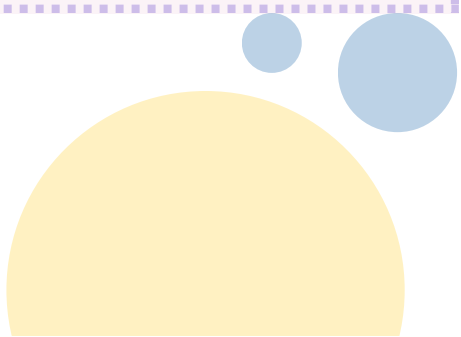

The new vision for the school education system in Delhi will sustain for a longer time with the recognition of teachers as skilled professionals, who can constantly engage in generating innovative practices of teaching and learning methods. Students across schools need strong academic foundations, cultural and global competencies, strong social emotional competencies (ability to collaborate, communicate, and solve problems) to productively engage in our democracy and compete in the global economy. DTU aims to prepare all aspiring teachers to be efficient enough to inculcate these aforementioned abilities in each and every school student they meet in the future.

For this, more than theoretical knowledge, Delhi Teachers University's main focus is on developing field experiences of students and to help them learn in original settings of government schools. Education programs at Delhi Teachers University will have integration of the professional teacher education and liberal education. As being set up in the era of digital learning, University will also focus on developing online teaching skills exclusively in all aspiring teachers through its programs.

Students will be provided international exposure through education seminars and conferences and will have an opportunity to engage with best teachers, teaching experts, academicians, researchers in the field of education from all across the globe. This will help them enhance their knowledge and perspectives towards global education systems and learn from them.

University also aims to promote fundamental and applied research in the field of education and help experts develop unique teaching experiences, practices, innovative curriculum, and pedagogic strategies to uplift the teaching and education community. Central to all its efforts, University's main aim is to develop a force of quality educators across different school stages as envisaged in National Education Policy 2020, who can think of innovations in the field of teaching and learning in any situation.

### 3. Objectives of the University

- 1. Provide quality initial teacher preparation (pre-service) programmes across different school stages in Delhi;*
- 2. Provide ongoing need based in-service programmes for practicing teachers of Delhi;*
- 3. Enhance the individual and institutional capacities in the education system in Delhi by preparing change leaders for various levels;*
- 4. Conduct fundamental and applied research focusing on learning, curriculum, pedagogy, school leadership, education policy and planning for Delhi;*
- 5. Resource development in the areas of curriculum and pedagogy to meet the requirements of public school system in the city;*
- 6. Institute a culture of dialogue on education in Delhi by hosting sustained forums that bring together different constituents of education;*
- 7. Establish national and international collaboration networks for exchange of ideas and practices;*
- 8. Function as an interface between schools, teachers and higher education.*
